

European Platform for Biodiversity Research Strategy (EPBRS)

The **European Platform for Biodiversity Research Strategy** is a forum at which natural and social scientists, policy-makers and other stakeholders identify structure and focus the strategically important research that is essential to:

- use the components of biodiversity in a sustainable way
- maintain ecosystem functions that provide goods and services
- conserve, protect and restore the natural world
- halt biodiversity loss

Second Biodiversity Knowledge conference

Sept 24-26th, 2013

Day 3: Institutional perspectives

1) Where do you see the **potential benefits** of a Network of Knowledge for your institution?

- Joining existing networks
- Linking a policy oriented structure with science oriented structures
- A financial sound and durable solution for multiple networks

Second Biodiversity Knowledge conference

Sept 24-26th, 2013

Day 3: Institutional perspectives

2) Where do you see the strongest **potential contributions** of your institutions to a Network of Knowledge – in **2014 in the steps of establishing it?**

- Existing structure
- Strong science/policy interface
- Strong make
- Strong representation in EC policy mechanisms

Second Biodiversity Knowledge conference

Sept 24-26th, 2013

Day 3: Institutional perspectives

3) Where do you see the strongest **potential contributions** of your institutions to a Network of Knowledge – **in a mid-term perspective after establishment?**

- Linking policy advice with science strategy
- Giving orientation to biodiversity research funding in function of policy questions

Second Biodiversity Knowledge conference

Sept 24-26th, 2013

Day 3: Institutional perspectives

4) Any additional points ...
