

March 2014

Conference venue
European Parliament
Brussels

Date
April 1st 2014

Dear BiodiversityKnowledge community,

With this Newsletter, we would like to cordially invite you to the Science-Policy-Society Conference:
"Towards a consolidated Network of Knowledge on biodiversity and ecosystem services in Europe"

This final event of the BiodiversityKnowledge project will be held at the European Parliament, Brussels on Tuesday 1 April 2014 (09:30 – 16:30). It is co-organized with the European Parliament Intergroup on climate change, biodiversity and sustainable development (EBCD).

The meeting is expected to:

- Raise awareness on the Network of Knowledge approach and its potential contributions to the policy making process from different knowledge holders, especially from science, to it;
- Contribute to further develop the discussion on a better implementation in Europe of the science-policy-society dialogues including relevant stakeholders; and
- Discuss links between better informed decision-making and research agenda development on biodiversity, ecosystem services and natural resource management.

[If you want to have a look at the agenda and register to the event, please follow this link.](#)

We would like to take advantage as well of this newsletter to thank all those who provided feedback and input to the **BiodiversityKnowledge White Paper**, "[A recommended design for "BiodiversityKnowledge": a Network of Knowledge to support decision making on biodiversity and ecosystem services in Europe](#)".

The White Paper and its executive summary are on the website.

Best wishes,

The BiodiversityKnowledge team
